

Gulf Horizons Covid Rules

Everyone wears **masks** on east walkways, in elevators and indoors where 6 ft social distancing is difficult.

Owners must notify contractors and service providers they hire, renters, visitors, and others using your unit.

Those arriving at Gulf Horizons, or returning from overnight or more extensive travel, must not use the Pool, Pool Deck or Community Room for **10** days.

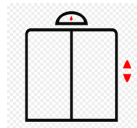

North elevator is reserved for residents who have completed a 10-day self-quarantine period. The code for the north elevator is 3019 (think C019).

We are trusting residents to respect the proper use of this code and elevator. Do not share code with non-residents. If you have not completed a 10-day self-quarantine period, do not use this elevator.

South Elevator code remains the same and should be used by all visitors, deliveries and those arriving for an initial **10** day quarantine.

Do not share elevator with others, wear masks, face forward, tap buttons with an object or knuckle, and avoid speaking.

Only one person may occupy the laundry or storage rooms at a time while wearing mask.

It is the responsibility of all owners and renters to comply with all of the rules at Gulf Horizons. If you see someone in violation, please send an email documenting violation to:

sean@sunstatemanagement.com for follow up.

Please follow CDC guidelines
